Telephone Number, 24/7	+44 (0) 333 344 5255
Duty Marine Coordinator	seagreenmarinecoordination@sse.com
Address	Seagreen Wind Energy Ltd, Inchbraoch House Montrose Port Authority, South Quay Ferryden, Montrose, Angus DD10 9SL.

Fisheries liaison is coordinated by Brown and May Marine Ltd. For all fisheries enquiries, John Watt is primary contact:

Telephone Number	+44 (0) 1379872144
Mobile number	+44 (0) 7590 880746
Email	John.Watt@Brownmay.com
Address	Brown and May Marine Progress Way Mid Suffolk Business Park Eye, Suffolk IP23 7HU

1. Area of activity.

Export cable 3 has been retrieved from the seabed and pulled into the Seagreen Offshore Sub-station platform.

2. Activity Description.

On behalf of Seagreen Wind Energy Ltd, Nexans Aurora has recovered the wet-stowed export cable and pulled it into the Offshore Sub-station platform. On completion of their operations Nexans Aurora will depart the work site.

The multi-purpose offshore vessel Havila Phoenix will now commence trenching operations on export cable 3. The vessel will utilise a Capjet trenching tool to bury the cable to a pre-determined depth. Havila Phoenix is expected to arrive at the work site on or around the 25th of August.

	Length	127m		
	Beam	23m		
	Draft	7m		
	All Vessel Contact	Per-Kristian.Pedersen@nexans.com		

5. General Safety Advice

Mariners are reminded to navigate with caution and keep a continuous watch on VHF Ch 70/16 when navigating in and around the Seagreen area.

All vessels involved in construction activities will exhibit appropriate lights and day-time shapes prescribed by the International Regulations for Preventing Collisions at Sea, relative to operations. The vessel will also transmit an Automatic Identification System (AIS) message.

6. Safety Zones

Following consideration by Scottish government ministers it has been agreed that during the construction phases of the Seagreen development mandatory rolling 500m safety zones will be established around each Wind Turbine Generator and/or their foundations whilst construction works are in progress, as indicated by the presence of a construction vessel. The safety zones will be triggered whenever a vessel is on station at a WTG and undertaking construction activities.

In addition, mandatory pre commissioning 50m safety zones will be established around each Wind Turbine Generator and/or their foundations when construction works have been completed but prior to Wind Farm commissioning or where construction works have only been partially completed. These safety zones will be active at any structure during the construction phase where a construction vessel is not present at a Wind Turbine Generator.

7. Distribution List

A central list of recipients is maintained by the Marine Coordinator; if you are not the appropriate recipient of these notices, or do not wish to receive the notices in the future, please contact us at the address shown in this notice.
