Seagreen Offshore Wind Farm – Confirmed Unexploded Ordnance

Contact Details for Marine Coordination and Fisheries Liaison

The following contact can provide more information if required:

Telephone Number, 24/7	+44 (0) 333 344 5255
Duty Marine Coordinator	seagreenmarinecoordination@sse.com
Address	Seagreen Wind Energy Ltd, Windy Waves House Montrose Port Authority, South Quay Ferryden, Montrose, Angus DD10 9SL.

Fisheries liaison is coordinated by Brown and May Marine Ltd. For all fisheries enquiries, Willie Watt is primary contact:

Telephone Number	+44 (0) 1379872144
Mobile number	+44 (0) 7590 880746
Email	Willie.w@Brownmay.com
Address	Brown and May Marine Progress Way Mid Suffolk Business Park Eye, Suffolk IP23 7HU

1. Activity Description.

A confirmed item of unexploded ordnance has been discovered during survey operations within the boundary of the Seagreen Offshore Wind Farm site. The object believed to be a 12-16 inch long naval projectile could possibly contain high explosives. A 500m exclusion zone centred on the below coordinates has been established until further notice.

ID	Latitude (DDM WGS 84)	Longitude (DDM WGS 84)
Confirmed UXO	56° 37.6109' N	1° 53.3787' W

2. Vessel Details.

Vessel Name – Go Electra	
General Description and Dimensions:	Offshore Supply Vessel – LOA 79.6m x 16.4 beam
Call Sign:	V7ZR6
MMSI:	538005197
Onshore Representative:	George Cooper George.cooper@seaway7.com
	

NOTICE TO MARINERS

3. General Safety Advice

All vessels are asked to refrain from entering the exclusion zone shown above in Table 1 & Fig 1.

All vessels involved in the construction of the Seagreen development will exhibit appropriate lights and shapes prescribed by the International Regulations for Preventing Collisions at Sea; relative to their operations. All vessels will also transmit an Automatic Identification System (AIS) message.

MARINERS ARE REMINDED to navigate with caution and keep continued watch on VHF Ch.70/16 when navigating the area.

4. Safety Zones

Following consideration by Scottish government ministers it has been agreed that during the construction phases of the Seagreen development mandatory rolling 500m safety zones will be established around each Wind Turbine Generator and/or their foundations whilst construction works are in progress, as indicated by the presence of a construction vessel. The safety zones will be triggered whenever a vessel is on station at a WTG and undertaking construction activities.

In addition, mandatory pre commissioning 50m safety zones will be established around each Wind Turbine Generator and/or their foundations when construction works have been completed but prior to Wind Farm commissioning or where construction works have only been partially completed. These safety zones will be active at any structure during the construction phase where a construction vessel is not present at a Wind Turbine Generator.

5. Distribution List

A central list of recipients is maintained by the Marine Coordinator; if you are not the appropriate recipient of these notices, or do not wish to receive the notices in the future, please contact us at the address shown in this notice.
