NOTICE TO MARINERS

2. Activity Description.

On behalf of Seagreen Wind Energy Ltd, Seaway 7 will deliver boulder clearance and relocation services on the Inter Array Cable routes, Wind Turbine Generator Foundation locations and the Offshore Substation Platform location.

A ROV with integrated grab tool will be launched using the vessel's heave compensated crane to facilitate the relocation of pre-selected boulders from working areas. Any seabed debris located within working areas will also be relocated. An example of the ROV and integrated grab tool is shown below in fig 2.

A replacement boulder clearance vessel Skandi Skansen is expected to arrive on site on or around the 8th of November 2021 to recommence boulder clearance and relocation operations.
