PREFACE

NON-TECHNICAL SUMMARY (NTS)

Introduction	NTS-1
Seagreen Wind Energy Limited	NTS-1
The Seagreen Project	NTS-2
Project Background and Existing Consents	NTS-2
The Optimised Seagreen Project	NTS-2
The Capacity Variation	NTS-3
The Need for Renewable Energy	NTS-3
Purpose of EIA Report	NTS-4
Project Description	NTS-4
Site Selection and Alternatives Considered	NTS-6
Project Programme	NTS-7
The Environmental Impact Assessment Process	NTS-7
Overview	NTS-7
Scoping	NTS-7
Assessing Impact Significance	NTS-8
Mitigation and Residual Impacts	NTS-9
Consultation	NTS-9
Summary of Environmental Impacts	NTS-10
Introduction	NTS-10
Ornithology	NTS-10
<i>Scope of Assessment</i>	<i>NTS-10</i>
<i>Summary of Assessment</i>	<i>NTS-11</i>
Natural Fish and Shellfish Resource	NTS-11
<i>Scope of Assessment</i>	<i>NTS-11</i>
<i>Summary of Assessment</i>	<i>NTS-12</i>
Marine Mammals	NTS-12
<i>Scope of Assessment</i>	<i>NTS-12</i>
<i>Summary of Assessment</i>	<i>NTS-12</i>
Commercial Fisheries	NTS-13
<i>Scope of Assessment</i>	<i>NTS-13</i>
<i>Summary of Assessment</i>	<i>NTS-14</i>
Shipping and Navigation	NTS-14
<i>Scope of Assessment</i>	<i>NTS-14</i>
<i>Summary of Assessment</i>	<i>NTS-15</i>
Seascape, Landscape and Visual Amenity	NTS-16
<i>Scope of Assessment</i>	<i>NTS-16</i>
<i>Summary of Assessment</i>	<i>NTS-16</i>

Military and Civil Aviation	NTS-16
<i>Scope of Assessment</i>	NTS-16
<i>Summary of Assessment</i>	NTS-17
Socio-economics	NTS-17
<i>Scope of Assessment</i>	NTS-17
<i>Summary of Assessment</i>	NTS-17
Habitat Regulations Appraisal (HRA)	NTS-18
Conclusion	NTS-19
Further Information	NTS-20
References	NTS-20

CHAPTER 1: INTRODUCTION

Introduction	1-1
Existing Consents	1-1
Purpose of the EIA Report	1-2
The Applicants	1-3
The Seagreen Project	1-4
Project Design Evolution	1-5
Scope of the Assessment	1-6
Structure of the EIA Report	1-7
Project Team	1-8
References	1-8

CHAPTER 2: NEED FOR THE PROJECT

Introduction	2-1
Climate Change	2-1
New Energy Infrastructure	2-3
Energy Security	2-4
Economic Benefit	2-5
Offshore Wind in Scotland	2-6
Need for and Benefits of Round 3, the Zone and the Optimised Seagreen Project	2-7
References	2-8

CHAPTER 3: SITE SELECTION AND ALTERNATIVES

Introduction	3-1
Site Selection and Alternatives	3-1
Site/Phase Selection within the Firth of Forth Zone	3-1
Boundary Refinement for the Seagreen Project (Project Alpha and Bravo)	3-3
Seagreen Project Design Evolution: Location	3-5

Seagreen Project Design Evolution and Alternatives	3-6
Design Envelope Parameters	3-6
The Project Design	3-6
Wind Turbine Generators, Number and Size	3-7
Offshore Wind Farm Capacity and Indicative Array Layout	3-8
<i>Offshore Wind Farm Structures</i>	3-10
The Application vs the Originally Consented Project	3-11
‘Do-nothing’ Approach	3-11
Summary	3-12
References	3-13

CHAPTER 4: POLICY AND LEGISLATION

Introduction	4-1
Policy	4-1
International and European Context	4-1
Key UK Policy and Legislation	4-2
<i>The Climate Change Act 2008</i>	4-2
<i>National Policy Statement</i>	4-2
<i>UK Marine Policy Statement</i>	4-2
Scottish Policy and Legislation	4-3
<i>The Climate Change Act (Scotland) 2009</i>	4-3
<i>The Electricity Generation Policy Statement</i>	4-3
<i>The Scottish Energy Strategy</i>	4-4
<i>National Planning Framework 3</i>	4-4
<i>Scottish Planning Policy</i>	4-4
<i>The Renewables Action Plan and 2020 Routemap for Renewable Energy in Scotland</i>	4-5
<i>Scotland’s Offshore Wind Route Map</i>	4-5
Scottish Marine Planning	4-5
Scottish National Marine Plan (NMP)	4-6
Regional Marine Plans	4-6
Sectoral Plans	4-6
Development Consents	4-7
Section 36 Consent	4-7
Marine Licensing	4-8
EIA Legislative Framework	4-8
Other Consents and Legislation	4-9
Habitats and Birds Directives and Regulations	4-9
European Protected Species (EPS) Licence	4-10
Energy Act 2004 – Safety Zones	4-10
Decommissioning Plan	4-10
Marine Strategy Framework Directive	4-10
References	4-11

CHAPTER 5: PROJECT DESCRIPTION

Introduction	5-1
Outline of Project Components	5-1
The Project Design Envelope	5-4
Site Description and Characteristics	5-5
Project Location	5-5
Metocean, Seabed and Ground Conditions	5-5
Indicative Offshore Wind Farm Array Layout	5-5
Offshore Project Components	5-6
Wind Turbine Generators	5-6
Substructures and Foundations	5-10
Jacket Substructures and Associated Foundations	5-12
<i>Jacket Substructures</i>	5-12
<i>Pin Piled Tubular Foundations</i>	5-13
<i>Suction Caisson Foundations</i>	5-13
Gravity Base Foundations and Substructures	5-13
Monopiles	5-14
Foundations: Scour Protection	5-15
Foundation and Substructure Zones of Influence	5-15
Summary of Foundation and Substructure Design Parameters	5-16
Array Cables	5-17
Wind Measurement	5-19
Wave Buoys	5-19
Offshore Wind Farm Construction	5-19
Offshore Pre-Construction and Construction Key Activities	5-20
Outline Offshore Construction Programme	5-20
Marine Control and Safety	5-22
Pre-Installation Activities	5-23
Construction Methods for the Optimised Seagreen Project (Project Alpha and Project Bravo)	5-23
Foundation and Substructure Installation	5-23
<i>Jacket Installation with Driven and/or Drilled Tubular Pin Piles</i>	5-23
<i>Suction Caisson Installation</i>	5-27
<i>Gravity Base Structure Installation</i>	5-28
<i>Monopile Installation</i>	5-28
Drilling Monopiles and Pin Piles/Sediment Discharges	5-30
Noise Emissions from Piling: Monopile and Pin Piling Activities	5-30
Grouting of Foundations	5-31
Installation of Scour Protection: all Foundations	5-31
WTG Installation	5-32
<i>Stick Build Installation</i>	5-32

Array Cable Installation	5-32
<i>Array Cable Installation Procedure</i>	5-32
<i>Pre-installation Works</i>	5-33
<i>Array Cable Installation Methods</i>	5-34
<i>Cable Burial by Ploughing</i>	5-34
Array Cable Burial Depths and Trench Widths	5-36
Alternative Array Cable Protection	5-36
<i>Concrete Mattresses</i>	5-36
<i>Rock Placement</i>	5-36
Offshore Wind Farm Commissioning	5-37
Offshore Wind Farms Operation and Maintenance	5-38
Marine Control and Safety	5-39
<i>Lighting, Marking and Signage</i>	5-39
<i>Anchorage and Safety Zones</i>	5-39
<i>Marine Control Centre</i>	5-39
Access Strategy for Offshore Infrastructure	5-40
<i>Access by Work Boat</i>	5-41
<i>Access from Mothership</i>	5-41
<i>Personnel and Access to WTGs</i>	5-41
<i>Vessel and Helicopter Movements</i>	5-42
O&M Activities	5-42
Pollution Prevention and Waste Management	5-43
Waste Management	5-43
<i>Construction</i>	5-43
<i>Operation and Maintenance</i>	5-44
Weather and Sea Conditions Monitoring	5-44
Port Facilities	5-44
Repowering	5-45
Decommissioning	5-45
Background	5-45
Decommissioning of WTGs	5-45
Decommissioning of Substructures and Foundations	5-45
Decommissioning of Offshore Cabling including Export Cabling	5-47
Summary of Optimised Seagreen Project Design	5-47
References	5-51
CHAPTER 6: EIA PROCESS	
Introduction	6-1
Requirement for EIA	6-1
Legislative Framework	6-1
EIA Guidance and Best Practice	6-3

The EIA Process	6-3
Scope of This EIA Report	6-3
Structure of Assessment	6-4
Consultation	6-8
<i>Consultation with Statutory Consultees</i>	6-8
<i>Consultation with Non-statutory Consultees</i>	6-9
<i>Public consultation</i>	6-9
<i>Public information days</i>	6-9
Design Envelope Approach	6-10
Impact Identification and Evaluation	6-11
<i>Source-pathway-receptor model</i>	6-11
<i>Effect vs Impact</i>	6-11
Baseline Environment	6-12
Assessing Impact Significance	6-12
<i>Sensitivity of a Receptor</i>	6-13
<i>Magnitude of Effect</i>	6-13
Impact Significance	6-14
Mitigation and Residual Impacts	6-15
Monitoring	6-15
Interrelationships	6-16
Assessment of Cumulative Impacts	6-16
Cumulative Impact Assessment Methodology	6-16
Transboundary Impacts	6-17
Assumptions and Limitations	6-17
Habitats Regulations Appraisal	6-18
References	6-19
CHAPTER 7: SCOPE OF EIA REPORT	
Introduction	7-1
2012 Offshore ES	7-1
ES Addendum 2013 and Consents Decision 2014	7-2
Scoping Request and Scoping Opinion 2017	7-2
Scoping Request May 2017	7-2
Scoping Opinion September 2017	7-3
<i>EIA Regulations</i>	7-3
<i>Using information contained within the 2012 Offshore ES</i>	7-3
<i>Reporting of Potential Significant Impacts</i>	7-3
<i>Reporting of Consent Conditions from Original Consents</i>	7-3
<i>Use of Competent Experts</i>	7-3
Post Scoping Consultation	7-4
Parameters Scoped into and out of EIA	7-6
Habitats Regulations Appraisal	7-6

Gap Analysis	7-6
Environmental Measures Incorporated into Project Design	7-10
Consent Conditions	7-11
References	7-15
CHAPTER 8: ORNITHOLOGY	
Introduction	8-1
Legislation, Policy and Guidance	8-3
Policy Context	8-3
Legislative Requirements	8-5
Designated Sites	8-6
Guidance	8-6
Consultation	8-8
Scope of Assessment	8-12
Disturbance	8-13
Displacement and Barrier Effects	8-13
Collision	8-14
Scoped Out Impacts	8-14
Methodology	8-14
Study Area	8-14
Data Collection	8-15
<i>Baseline Survey</i>	8-16
<i>Data Analysis</i>	8-18
Impact Assessment	8-19
Developments in Assessment Methods	8-19
Displacement Analysis	8-19
Collision Risk Analysis	8-27
Significance Criteria	8-33
Assessment Limitations and Uncertainty	8-37
Baseline Conditions	8-37
Gannet	8-39
Kittiwake	8-41
Herring Gull	8-42
Guillemot	8-43
Razorbill	8-45
Puffin	8-46
Predicted Future Baseline	8-48
Assessment of Impacts – Worst Case Scenario	8-49
Worst Case Scenario	8-49
Environmental Measures Incorporated into the Project	8-51

Impact Assessment – Construction Phase	8-52
Project Alpha	8-52
<i>Disturbance and Displacement Impacts</i>	8-52
Project Bravo	8-56
<i>Disturbance and Displacement Impacts</i>	8-56
Project Alpha and Project Bravo Combined	8-59
<i>Disturbance and Displacement Impacts</i>	8-59
Impact Assessment – Operational Phase	8-63
Project Alpha	8-63
<i>Disturbance</i>	8-63
<i>Displacement</i>	8-64
<i>Collision</i>	8-70
Project Bravo	8-76
<i>Disturbance</i>	8-76
<i>Displacement</i>	8-77
<i>Collision</i>	8-82
Project Alpha and Project Bravo Combined	8-88
<i>Disturbance</i>	8-88
<i>Displacement</i>	8-88
<i>Collision</i>	8-93
Impact Assessment – Decommissioning	8-100
Project Alpha	8-100
Project Bravo	8-100
Project Alpha and Project Bravo combined	8-101
Impact Assessment: Cumulative	8-101
Scope of Assessment	8-101
Projects Considered	8-102
Cumulative Assessment with Other Projects in the Forth and Tay Region	8-103
Cumulative Construction Impacts	8-103
Cumulative Operational Impacts	8-105
Interrelationships	8-136
Transboundary Impacts	8-136
Mitigation and Monitoring	8-136
Impact Assessment Summary – The Optimised Seagreen Project	8-137
References	8-140

CHAPTER 9: NATURAL FISH AND SHELLFISH RESOURCE

Introduction	9-1
Legislation, Policy and Guidance	9-3
Policy Context	9-3
Legislative Requirements	9-3
Guidance	9-4

Consultation	9-4
Scope of Assessment	9-7
Methodology	9-7
Study Area	9-7
Data Collection	9-8
<i>Survey Work</i>	9-8
Impact Assessment	9-8
Approach to underwater noise assessment	9-9
<i>Developments in Assessment Methods</i>	9-12
<i>Significance Criteria</i>	9-12
Assessment Limitations and Uncertainty	9-14
Baseline Conditions	9-15
Immediate Study Area (Current Baseline)	9-15
Regional Study Area (Current Baseline)	9-17
Wider Study Area (Current Baseline)	9-17
<i>Individual species accounts – finfish</i>	9-18
<i>Individual species accounts – elasmobranchs</i>	9-28
<i>Individual species accounts – shellfish and other fish species</i>	9-30
<i>Individual species accounts – migratory fish</i>	9-33
Summary of Baseline	9-37
Predicted Future Baseline	9-37
Sensitivity of Fish and Shellfish to Underwater Noise	9-39
Assessment of Impacts – Worst Case Scenario	9-41
Worst Case Scenario	9-41
Environmental Measures Incorporated into the Project	9-44
Impact Assessment – Construction Phase	9-45
Project Alpha	9-45
<i>Effects of noise – mortality and injury impacts</i>	9-47
<i>Effect of noise – behavioural impacts</i>	9-47
Project Bravo	9-49
<i>Effect of noise – mortality and injury impacts</i>	9-49
<i>Effect of noise – behavioural impacts</i>	9-50
Project Alpha and Project Bravo Combined	9-50
<i>Effect of noise – mortality and injury impacts</i>	9-51
<i>Effect of noise – behavioural impacts (herring and other Group 3 fish species)</i>	9-52
Impact Assessment – Operational Phase	9-53
Impact Assessment – Decommissioning	9-53
Impact Assessment: Cumulative	9-53
Effect of noise – behavioural impacts (herring and other Group 3 fish species)	9-55
<i>Additional Mitigation</i>	9-57
<i>Residual Impact</i>	9-57
Interrelationships	9-57

Transboundary Impacts	9-58
Mitigation and Monitoring	9-58
Impact Assessment Summary - The Optimised Seagreen Project	9-58
References	9-60

CHAPTER 10: MARINE MAMMALS

Introduction	10-1
Legislation, Policy and Guidance	10-3
Policy Context	10-3
Legislative Requirements	10-3
Guidance	10-6
Consultation	10-6
Scope of Assessment	10-12
Methodology	10-12
Study Area	10-12
Data Collection	10-13
Impact Assessment	10-15
Approach to underwater noise assessment	10-15
<i>Modelling the population consequences of noise impacts</i>	10-18
<i>Developments in Assessment Methods</i>	10-19
<i>Significance Criteria</i>	10-21
Assessment Limitations and Uncertainty	10-23
<i>Predicting the Exposure of Animals to Underwater Noise</i>	10-23
<i>Predicting the Response of Animals to Underwater Noise</i>	10-23
<i>Predicting the Population Consequences of Disturbance</i>	10-25
Baseline Conditions	10-26
Harbour seal	10-26
<i>Current baseline</i>	10-26
Grey seal	10-28
<i>Current Baseline</i>	10-28
Bottlenose dolphin	10-31
<i>Current baseline</i>	10-31
Harbour porpoise	10-33
<i>Current baseline</i>	10-33
Minke whale	10-35
<i>Current baseline</i>	10-35
White-beaked dolphin	10-36
<i>Current baseline</i>	10-36
Baseline summary	10-37
<i>Predicted future baseline</i>	10-38

Assessment of Impacts	10-39
Sensitivity of Marine Mammals to Noise Impacts from Pile Driving	10-39
PTS	10-39
<i>Behavioural effect: displacement</i>	10-41
Worst Case Scenario	10-44
Environmental Measures Incorporated into the Project	10-46
Impact Assessment – Construction Phase	10-47
Project Alpha	10-47
PTS Impacts from Piling Noise	10-47
Disturbance Impacts from Piling Noise	10-51
Project Bravo	10-58
PTS Impacts from Piling Noise	10-58
Disturbance Impacts from Piling Noise	10-61
Projects Alpha and Project Bravo Combined (the optimised Seagreen Project)	10-67
PTS risk from the concurrent construction of Project Alpha and Project Bravo combined	10-67
Disturbance Impacts from Piling Noise: Sequential Construction of Project Alpha followed by Project Bravo	10-68
Disturbance Impacts from Piling Noise: Concurrent Construction	10-71
Summary	10-77
Impact Assessment: Cumulative	10-77
Harbour Seal Cumulative Impact of Disturbance	10-79
Grey Seals Cumulative Impact of Disturbance	10-79
Population modelling	10-81
Bottlenose Dolphin Cumulative Impact of Disturbance	10-83
Bottlenose Dolphin Cumulative Construction Scenarios	10-84
Consideration of PTS	10-87
Bottlenose Dolphin Cumulative Assessment: Single vessel (longest duration) without PTS at Inch cape	10-87
Harbour Porpoise Cumulative Impact of Disturbance	10-89
Minke Whale Cumulative Impact of Disturbance	10-92
White-beaked Dolphin Cumulative Impact of Disturbance	10-94
Interrelationships	10-95
Transboundary Impacts	10-95
Mitigation and monitoring	10-95
Impact assessment summary – the optimised Seagreen project	10-96
References	10-99

CHAPTER 11: COMMERCIAL FISHERIES

Introduction	11-1
Legislation, Policy and Guidance	11-2
Policy Context	11-2
Legislative Requirements	11-4
Guidance	11-5
Consultation	11-5
Scope of Assessment	11-6
Methodology	11-11
Study Area	11-11
Data Collection	11-11
Impact Assessment	11-11
<i>Developments in Assessment Methods</i>	11-13
<i>Significance Criteria</i>	11-13
Assessment Limitations and Uncertainty	11-15
Baseline Conditions	11-15
Overview	11-15
Scallop Fishery	11-16
<i>Current baseline</i>	11-16
<i>Predicted future baseline</i>	11-16
Squid Fishery	11-19
<i>Current baseline</i>	11-19
<i>Predicted future baseline</i>	11-19
Lobster and Crab Fishery	11-20
<i>Current baseline</i>	11-20
<i>Predicted future baseline</i>	11-20
Nephrops Fishery	11-20
<i>Current baseline</i>	11-20
<i>Predicted future baseline</i>	11-21
Whitefish Fishery	11-21
<i>Current baseline</i>	11-21
<i>Predicted future baseline</i>	11-21
Assessment of Impacts – Worst Case Scenario	11-21
Worst Case Scenario	11-22
Environmental Measures Incorporated into the Project	11-25
Impact Assessment – Construction Phase	11-27
Project Alpha	11-27
<i>Potential impacts on commercially exploited fish and shellfish populations</i>	11-27
<i>Temporary loss of, or restricted access to, traditional fishing grounds</i>	11-27
<i>Displacement of fishing activity into other areas</i>	11-29
<i>Safety issues for fishing vessels</i>	11-30
<i>Increased steaming times to fishing grounds</i>	11-31
<i>Interference with fishing activities</i>	11-32

Project Bravo	11-33
Project Alpha and Project Bravo Combined	11-34
<i>Potential impacts on commercially exploited fish and shellfish populations</i>	11-34
<i>Temporary loss of, or restricted access to, traditional fishing grounds</i>	11-35
<i>Displacement of fishing activity into other areas</i>	11-36
<i>Safety issues for fishing vessels</i>	11-37
<i>Increased steaming times to fishing grounds</i>	11-38
<i>Interference with fishing activities</i>	11-38
Impact Assessment – Operational Phase	11-39
Project Alpha	11-39
<i>Complete loss of, or restricted access to, traditional fishing grounds</i>	11-39
<i>Displacement of fishing activity into other areas</i>	11-42
<i>Safety issues for fishing vessels</i>	11-42
<i>Increased steaming times to fishing grounds</i>	11-43
<i>Interference with fishing activities</i>	11-44
Project Bravo	11-45
Project Alpha and Project Bravo Combined	11-46
<i>Complete loss of, or restricted access to, traditional fishing grounds</i>	11-46
<i>Displacement of fishing activity into other areas</i>	11-47
<i>Safety issues for fishing vessels</i>	11-48
<i>Increased steaming times to fishing grounds</i>	11-48
<i>Interference with Fishing Activities</i>	11-49
Impact Assessment – Decommissioning	11-50
Impact Assessment: Cumulative	11-51
Cumulative Impacts during Construction	11-54
<i>Potential impacts on commercially exploited fish and shellfish populations</i>	11-54
<i>Temporary loss of, or restricted access to, traditional fishing grounds</i>	11-54
<i>Displacement of fishing activity into other areas</i>	11-57
<i>Increased steaming times to fishing grounds</i>	11-57
<i>Interference with fishing activities</i>	11-58
Cumulative Impacts during Operation	11-59
<i>Complete loss of, or restricted access to, traditional fishing grounds</i>	11-59
<i>Displacement of fishing activity into other areas</i>	11-60
<i>Increased steaming times to fishing grounds</i>	11-61
<i>Interference with fishing activities</i>	11-61
Cumulative Impacts during Decommissioning	11-62
Interrelationships	11-63
Transboundary Impacts	11-63
Mitigation and Monitoring	11-63
Impact Assessment Summary – The Optimised Seagreen Project	11-63
References	11-69

CHAPTER 12: SHIPPING AND NAVIGATION

Introduction	12-1
Legislation, Policy and Guidance	12-3
Policy Context	12-3
Legislative Requirements	12-3
Guidance	12-4
Scoping and Consultation	12-4
Regular Operator Consultation	12-10
Scope of Assessment	12-10
Methodology	12-12
Study Area	12-12
Cumulative Study Area	12-12
Data Collection	12-12
<i>Survey Work</i>	12-13
Impact Assessment	12-13
<i>Developments in Assessment Methods</i>	12-14
<i>Significance Criteria</i>	12-14
Cumulative Impact Assessment	12-16
Assessment Limitations and Uncertainty	12-16
Baseline Conditions	12-16
Study Area	12-16
<i>Current baseline – Navigational Features</i>	12-16
<i>Current Baseline – SAR</i>	12-17
<i>Current Baseline – Marine Incidents</i>	12-18
<i>Current Baseline – Marine Traffic Survey Results</i>	12-18
<i>Predicted Future Baseline</i>	12-19
Assessment of Impacts – Worst Case Scenario	12-20
Worst Case Scenario	12-20
Environmental Measures Incorporated into the Project	12-23
Impact Assessment – Construction Phase	12-26
Project Alpha	12-26
<i>Impact of Construction on Commercial Vessels</i>	12-26
Project Alpha	12-27
<i>Impact of Construction on Commercial Fishing Vessels</i>	12-27
Project Alpha	12-29
<i>Impact of Construction on Recreational Vessels</i>	12-29
Project Bravo	12-31
<i>Impact of Construction on Commercial Vessels</i>	12-31
Project Bravo	12-32
<i>Impact of Construction on Commercial Fishing Vessels</i>	12-32
Project Bravo	12-34
<i>Impact of Construction on Recreational Vessels</i>	12-34

Project Alpha and Project Bravo Combined	12-35
<i>Impact of Construction on Commercial Vessels</i>	12-35
Project Alpha and Project Bravo Combined	12-36
<i>Impact of Construction on Commercial Fishing Vessels</i>	12-36
Project Alpha and Project Bravo Combined	12-38
<i>Impact of Construction on Recreational Vessels</i>	12-38
Impact Assessment – Operational Phase	12-39
Project Alpha	12-39
<i>Impact of Operation on Commercial Vessels</i>	12-39
Project Alpha	12-40
<i>Impact of Operation on Commercial Fishing Vessels</i>	12-40
Project Alpha	12-42
<i>Impact of Operation on Recreational Vessels</i>	12-42
Project Alpha	12-43
<i>Impact of Operation on SAR Operations</i>	12-43
Project Bravo	12-44
<i>Impact of Operation on Commercial Vessels</i>	12-44
Project Bravo	12-45
<i>Impacts of Operation on Commercial Fishing Vessels</i>	12-45
Project Bravo	12-47
<i>Impact of Operation on Recreational Vessels</i>	12-47
Project Bravo	12-48
<i>Impact of Operation on SAR Operations</i>	12-48
Project Alpha and Project Bravo Combined	12-49
<i>Impact of Operation on Commercial Vessels</i>	12-49
Project Alpha and Project Bravo Combined	12-50
<i>Impact of Operation on Commercial Fishing Vessels</i>	12-50
Project Alpha and Project Bravo Combined	12-52
<i>Impact of Operation on Recreational Vessels</i>	12-52
Project Alpha and Project Bravo Combined	12-53
<i>Impact of Operation on SAR Operations</i>	12-53
Impact Assessment – Decommissioning	12-54
Project Alpha and Project Bravo Combined	12-54
<i>Impact of Decommissioning on Commercial Vessels</i>	12-54
Project Alpha and Project Bravo Combined	12-55
<i>Impact of Decommissioning on Fishing Vessels</i>	12-55
Project Alpha and Project Bravo Combined	12-55
<i>Impact of Decommissioning on Recreational Vessels</i>	12-55
Impact Assessment: Cumulative	12-55

Cumulative Impact Assessment	12-57
Cumulative Impact of Construction or Decommissioning Phases on Commercial Vessels	12-57
<i>Potential Impacts</i>	12-58
<i>Summary</i>	12-58
<i>Additional Mitigation</i>	12-58
<i>Residual Impact</i>	12-58
Cumulative Impact of Operation Phase on Commercial Vessels	12-58
<i>Potential Impacts</i>	12-59
<i>Summary</i>	12-60
<i>Additional Mitigation</i>	12-60
<i>Residual Impact</i>	12-60
Optimised Seagreen Project and other Schemes	12-60
<i>Cumulative Impact of Construction and Decommissioning on Commercial Fishing Vessels</i>	12-60
<i>Cumulative Impact of Operation on Commercial Fishing Vessels</i>	12-60
Interrelationships	12-61
Transboundary Impacts	12-61
Mitigation and Monitoring	12-61
Impact Assessment Summary - The Optimised Seagreen Project	12-61
References	12-69

CHAPTER 13: SEASCAPE, LANDSCAPE AND VISUAL AMENITY

Introduction	13-1
Legislation, Policy and Guidance	13-4
Policy Context	13-4
<i>International</i>	13-4
<i>National</i>	13-4
<i>Scottish Planning Policy</i>	13-5
<i>SNH Policy and Guidance</i>	13-5
<i>SLVIA Guidance</i>	13-5
Legislative Requirements	13-7
<i>International and National Landscape and Seascape Designations</i>	13-7
<i>Local Landscape Designations</i>	13-7
<i>Historic Gardens and Designed Landscapes (HGDL)</i>	13-8
Consultation	13-9
Scope of Assessment	13-15
Methodology	13-16
Overview of Assessment Methodology	13-17
Approach	13-17
Distinction between Seascape, Landscape and Visual Impacts	13-18
Types of Effect Considered	13-18
Design Sensitivity Analysis	13-19

Study Area	13-20
Desk Study	13-21
<i>Survey Work</i>	13-21
Impact Assessment	13-21
Significance Criteria	13-22
<i>Assessment Terminology and Judgements</i>	13-22
<i>Sensitivity</i>	13-22
<i>Magnitude of Effect</i>	13-25
<i>Assessment Limitations</i>	13-29
Mitigation	13-30
Residual Effect	13-30
Baseline Conditions	13-30
ZTV Studies	13-31
Landscape Character	13-32
Seascape Character	13-33
<i>National Seascape Units</i>	13-34
<i>Regional Seascape Units</i>	13-34
Physical and Human Influences on the Landscape/Seascape within the Study Area	13-35
Visual Receptors	13-36
<i>Settlements</i>	13-37
<i>Route Corridors – Roads, Railways, Cycle Routes and Footpaths</i>	13-37
<i>Recognised Vantage Points</i>	13-37
<i>Recreational Receptors</i>	13-38
<i>Tourist Attractions</i>	13-38
<i>Marine Receptors</i>	13-38
<i>Viewpoints</i>	13-39
<i>Night Time Lighting and Sensitivity</i>	13-41
Predicted Future Baseline	13-41
Assessment of Effects – Worst Case Scenario (WCS)	13-41
Meteorological Context	13-42
Additional Considerations	13-45
<i>Curvature of the Earth</i>	13-45
<i>Acuity of the Eye</i>	13-46
Environmental Measures Incorporated in to the Scheme	13-47
Impact Assessment – Construction Phase	13-47
Impact Assessment – Operational Phase	13-49
ZTV Analysis	13-50
Potential Effects on Regional Seascape Character during Operation	13-51
<i>SA3: Cove Bay to Milton Ness RSCU</i>	13-51
<i>SA4: Montrose Bay RSCU</i>	13-52
<i>SA5: Long Craig RSCU</i>	13-53
<i>SA6: Lunan Bay RSCU</i>	13-55
<i>SA7: Land Craig to The Deil’s Heid RSCU</i>	13-56

Potential Visual Amenity Effects During Operation	13-59
<i>Visual Effects from Representative Viewpoints</i>	13-59
<i>Viewpoint 1 Garron Point (Stonehaven Golf Club)</i>	13-60
<i>Viewpoint 2: Beach Road, Kirkton, St Cyrus</i>	13-61
<i>Viewpoint 3: White Caterthun Hill Fort</i>	13-62
<i>Viewpoint 4: Montrose</i>	13-64
<i>Viewpoint 5: Braehead of Lunan</i>	13-65
<i>Viewpoint 6: Arbroath Signal Tower</i>	13-66
<i>Viewpoint 7: Carnoustie</i>	13-68
<i>Viewpoint 8: Fife Ness, Lochaber Rock</i>	13-69
<i>Viewpoint 9: North Berwick Law</i>	13-70
<i>Viewpoint 10: Dunbar Cliffs</i>	13-71
<i>Viewpoint 11: Pinderachy</i>	13-71
<i>Viewpoint 12: The Geot/Ben Tirran (a corbett)</i>	13-72
<i>Viewpoint 13: Isle of May</i>	13-73
<i>Viewpoint 14: Bell Rock Lighthouse</i>	13-74
Visual Effects Summary from Representative Viewpoints	13-79
<i>Summary of Effects on Land-based Visual Receptors</i>	13-80
<i>Summary of Effects on Settlement and Residential Receptors</i>	13-80
<i>Summary of Effects on Recreational Walking and Cycle Routes</i>	13-81
<i>Summary of Effects on Roads and Railways</i>	13-81
<i>Summary of Effects on Recognised Vantage Points and Tourist Attractions</i>	13-82
Visual Impacts on Other Land-based Receptors	13-82
<i>Summary of Effects on Marine Receptors</i>	13-82
<i>Night Time Visual Assessment</i>	13-83
Valency of Effects	13-84
Residual Effects	13-85
Impact Assessment – Cumulative	13-85
Cumulative Effects of the optimised Seagreen Project with other Schemes	13-86
Issues Scoped Out	13-87
Cumulative Effects with Offshore Wind Farms	13-88
<i>Summary of Cumulative Effect on Regional Seascape Character</i>	13-89
<i>Assessment of Cumulative Effects on Visual Amenity</i>	13-91
Cumulative Effects with Onshore Wind Farms	13-99
<i>Summary Assessment of Cumulative Onshore Effects on Regional Seascape Character</i>	13-100
<i>Summary of cumulative impacts on Visual Amenity</i>	13-101
Interrelationships	13-102
Transboundary Impacts	13-102
Mitigation and Monitoring	13-102
Impact Assessment Summary – The Optimised Seagreen Project	13-102

CHAPTER 14: MILITARY AND CIVIL AVIATION

Introduction	14-1
Legislation, Policy and Guidance	14-3
Consultation	14-3
Scope of Assessment	14-5
Methodology	14-6
Study Area	14-6
Data Collection	14-6
Impact Assessment	14-6
<i>Developments in Assessment Methods</i>	14-7
<i>Significance Criteria</i>	14-7
Assessment Limitations and Uncertainty	14-8
Baseline Conditions	14-8
Current Baseline	14-8
Predicted future baseline	14-9
Assessment of Impacts – Worst Case Scenario	14-9
Worst Case Scenario	14-10
Environmental Measures Incorporated into the Project	14-10
Impact Assessment – Construction Phase	14-12
Project Alpha	14-12
Project Bravo	14-12
Projects Alpha and Bravo Combined	14-12
Impact Assessment – Operational Phase	14-13
Project Alpha	14-13
<i>Civil Radar (airport)</i>	14-14
<i>Military Radar (air traffic control)</i>	14-14
<i>En-Route Radar</i>	14-14
<i>MOD Air Defence Radar</i>	14-15
<i>Low Flying</i>	14-15
<i>Civil Aviation Authority (CAA) – Lighting</i>	14-15
Project Bravo	14-16
Projects Alpha and Bravo Combined	14-17
Impact Assessment – Decommissioning Phase	14-17
Project Alpha	14-17
Project Bravo	14-18
Projects Alpha and Bravo Combined	14-18
Impact Assessment: Cumulative	14-18
Interrelationships	14-20
Transboundary Impacts	14-20
Mitigation and Monitoring	14-20
Impact Assessment Summary – The Optimised Seagreen Project	14-20
References	14-22

CHAPTER 15: SOCIO-ECONOMICS

Introduction	15-2
Legislation, Policy and Guidance	15-3
Policy Context	15-3
Consultation	15-5
Scope of Assessment	15-5
Methodology	15-6
Study Area	15-6
Data Collection	15-7
Impact Assessment	15-7
<i>Developments in Assessment Methods</i>	15-9
<i>Significance Criteria</i>	15-9
Assessment Limitations and Uncertainty	15-10
Baseline Conditions	15-10
Demographics	15-10
<i>Current baseline</i>	15-10
<i>Future baseline</i>	15-11
Employment and Industrial Structure	15-11
<i>Current baseline</i>	15-11
Education	15-13
<i>Current baseline</i>	15-13
Supply Chain Opportunities	15-13
Summary	15-14
Assessment of Impacts – Worst Case Scenario	15-14
Worst Case Scenario	15-15
Environmental Measures Incorporated into the Project	15-15
Impact Assessment – Construction Phase	15-16
Project Alpha	15-16
Project Bravo	15-18
Project Alpha and Project Bravo combined	15-18
Impact Assessment – Operational Phase	15-20
Project Alpha	15-20
Project Bravo	15-23
Project Alpha and Project Bravo combined	15-23
Impact Assessment: Cumulative	15-25
Interrelationships	15-27
Transboundary Impacts	15-27
Mitigation and Monitoring	15-27
Impact Assessment Summary – The Optimised Seagreen Project	15-27
References	15-29

CHAPTER 16: HABITATS REGULATIONS APPRAISAL

Introduction	16-1
Legislation, Policy and Guidance	16-2
Policy Context	16-2
Legislative Requirements	16-3
Guidance	16-5
Consultation	16-5
Scope of Assessment	16-10
Methodology	16-13
Study Area	16-13
Data Collection	16-14
<i>Survey Work</i>	16-17
<i>Data Analysis</i>	16-18
Impact Assessment	16-19
<i>Developments in Assessment Methods</i>	16-20
<i>Displacement Analysis</i>	16-24
<i>Collision Risk Modelling</i>	16-30
<i>Assessment Limitations and Uncertainty</i>	16-36
<i>Implications of developments in assessment methodology</i>	16-36
Description of the Project (Worst Case Scenario)	16-37
Management of the European site(s)	16-37
Worst Case Scenario	16-37
Environmental Measures Incorporated into the Project	16-40
Characteristics of the European Site(s)	16-42
Berwickshire and North Northumberland Coast SAC	16-42
Firth of Tay and Eden Estuary SAC	16-43
Isle of May SAC	16-44
Moray Firth SAC	16-45
Buchan Ness to Collieston Coast SPA	16-46
Forth Islands SPA	16-47
Fowlsheugh SPA	16-48
St Abb's Head to Fast Castle SPA	16-49
Outer Firth of Forth and St Andrews Bay Complex pSPA	16-49
Impact Prediction: Special Areas of Conservation	16-51
Information Required	16-51
Impact Prediction for Project Alpha and Project Bravo Combined	16-51
<i>Construction Noise Impacts on Marine Mammals</i>	16-51
Impact prediction: In Combination	16-64
<i>Construction Noise Impacts on Marine Mammals</i>	16-64
Impact Prediction: Special Protection Areas	16-72
Introduction	16-72
Information Sources	16-72

Impact prediction	16-73
<i>Introduction</i>	16-73
<i>Displacement</i>	16-73
<i>Collision</i>	16-76
<i>Apportioning</i>	16-77
<i>Implications for qualifying populations</i>	16-85
<i>Assessment of Project Alpha alone</i>	16-87
<i>Assessment of Project Bravo alone</i>	16-104
<i>Assessment of Project Alpha and Project Bravo Combined</i>	16-118
<i>Optimised Seagreen Project in Combination with Other Projects</i>	16-132
Mitigation Measures	16-151
Conclusions	16-152
References	16-153

CHAPTER 17: SUMMARY OF IMPACTS

Summary of Impacts	17-3
---------------------------	-------------

CHAPTER 18: MITIGATION AND MONITORING

Introduction	18-1
General Mitigation Measures	18-1
Ornithology	18-2
Mitigation	18-2
Monitoring	18-3
Natural Fish and Shellfish Resource	18-3
Monitoring	18-3
Marine Mammals	18-4
Monitoring	18-5
Commercial Fisheries	18-6
Monitoring	18-7
Shipping and Navigation	18-8
Monitoring	18-9
Seascape, Landscape and Visual Amenity	18-9
Monitoring	18-10
Military and Civil Aviation	18-10
Monitoring	18-11
Socio-Economics	18-11
Monitoring	18-11
Physical Environment (Scoped out of the 2018 EIA)	18-12
Water Sediment Quality (Scope out of the 2018 EIA)	18-12
Benthic Ecology and Intertidal Ecology (Scoped out of the 2018 EIA)	18-13
Archaeology and Cultural Heritage (Scoped out of the 2018 EIA)	18-13
Other Marine Users and Activities (Scoped out of the 2018 EIA)	18-14
