

NOTICE TO MARINERS

Notice to Mariners associated with construction activities on Seagreen Offshore Wind Farm

Date of Issue	11-08-22	Notice Number	17-2021 – Rev 5
---------------	----------	---------------	-----------------

Seagreen Export Cable Nearshore Trenching Operations – Revision 5

Contact Details for Marine Coordination and Fisheries Liaison

The following contact can provide more information if required:

Telephone Number, 24/7	+44 (0) 333 344 5255
Duty Marine Coordinator	seagreenmarinecoordination@sse.com
Address	Seagreen Wind Energy Ltd, Windy Waves House Montrose Port Authority, South Quay Ferryden, Montrose, Angus DD10 9SL.

Fisheries liaison is coordinated by Brown and May Marine Ltd. For all fisheries enquiries, John Watt is primary contact:

Telephone Number	+44 (0) 1379872144
Mobile number	+44 (0) 7590 880746
Email	John.Watt@Brownmay.com
Address	Brown and May Marine Progress Way Mid Suffolk Business Park Eye, Suffolk IP23 7HU

1. Area of Planned Activity.

Nearshore export cable trenching works continue at the Seagreen Offshore Wind Farm export cable landfall site at Carnoustie, Angus, area shown below in fig 1.

NOTICE TO MARINERS

Fig 1 – Carnoustie cable landfall site.

2. Activity Description.

On behalf of Seagreen Wind Energy Ltd, Nexans Norway Dykkerteknikk AS continues nearshore trenching operations on the three Seagreen export cables.

There shall be two vessels engaged in this operation. MRV Sophie and the shoalbuster tug Baloe will utilise a capjet trenching tool to bury the export cables to an agreed depth. Diving operations will also form part of this operation, vessel details below.

Vessel – DSV Sophie		Contact Details		
	Call Sign	LK7943		
	MMSI	258003500		
	Vessel Details			
	Length	14.0m		
	Beam	7.0m		
	Vessel Contact	Per-Kristian Pederson +47 47640021		

Vessel – Tug Baloe		Contact Details		
	Call Sign	PBG1		
	MMSI	245431000		
	Vessel Details			
	Length	22.4m		
	Beam	8.0m		
	Draft	2.3m		
Vessel Contact	Per-Kristian Pederson +47 47640021			

NOTICE TO MARINERS

3. Accidental deposits on seabed.

During the construction of landfall works at the Seagreen Offshore Wind Farm Project Nexans AS have experienced some incidents of accidental deposits within the marine environment in the vicinity of the cable landfall site at Carnoustie, Angus. The objects that now require removal are two pipe flanges and rock from a ruptured rock net. The dropped objects have been searched for utilising various methods however have not yet been found. The search will continue until project close. The nearshore project area is bounded by the coordinates shown below.

Lat ddm	Long ddm
56° 29'.20 N	002° 43'.06 W
56° 29'.35 N	002° 43'.00 W
56° 29'.45 N	002° 42'.95 W
56° 29'.56 N	002° 42'.88 W
56° 29'.61 N	002° 42'.87 W
56° 29'.63 N	002° 42'.51 W
56° 29'.07 N	002° 42'.73 W

4. General Safety Advice

Mariners are reminded to navigate with caution and keep a continuous watch on VHF Ch 70/16 when navigating in and around the Seagreen area.

All vessels involved in construction activities will exhibit appropriate lights and day-time shapes prescribed by the International Regulations for Preventing Collisions at Sea, relative to operations. The vessel will also transmit an Automatic Identification System (AIS) message.

5. Safety Zones

Following consideration by Scottish government ministers it has been agreed that during the construction phases of the Seagreen development mandatory rolling 500m safety zones will be established around each Wind Turbine Generator and/or their foundations whilst construction works are in progress, as indicated by the presence of a construction vessel. The safety zones will be triggered whenever a vessel is on station at a WTG and undertaking construction activities.

In addition, mandatory pre commissioning 50m safety zones will be established around each Wind Turbine Generator and/or their foundations when construction works have been completed but prior to Wind Farm commissioning or where construction works have only been partially completed. These safety zones will be active at any structure during the construction phase where a construction vessel is not present at a Wind Turbine Generator.

6. Distribution List

A central list of recipients is maintained by the Marine Coordinator; if you are not the appropriate recipient of these notices, or do not wish to receive the notices in the future, please contact us at the address shown in this notice.
