# Seagreen Offshore Wind Farm.

## Weekly Notice of Operations 30/2021

**Issue Date – 26<sup>th</sup> July 2021.**

**Notice of Operations on Seagreen Offshore Wind Farm.**

**Work planned for the period 26-07-2021 to 01-08-2021.**

**Construction activities commenced on Seagreen Offshore Wind Farm on Thursday 17<sup>th</sup> December with works at the export cable landfall site. This notice will be updated weekly giving information of the progress and resources involved in the construction of the windfarm. The intention is to give notice of the activities involved in the construction phase of the project. Should anyone have any questions regarding construction operations we kindly ask that you put them forward well in advance.**

The Seagreen Offshore Wind Farm is located in the outer Firth of Forth and Firth of Tay region of the North Sea. The site is situated approximately 17.5 nautical miles East-southeast of the Port of Montrose where the project Marine Coordination Centre will be located during the construction and operational phases. The first phase of the development will consist of 114 suction bucket foundation structures, with associated 114 10MW offshore wind turbine generators, 1 HVAC offshore substation platform, associated inter array and export cabling. The generated power will be transmitted to the National Grid via 3 subsea transmission cables making landfall at Carnoustie, Angus, to the Southwest of the development site. Grid connection will

## 2. Ongoing Operations

### 2.1 Export Cable Landfall works.

Works continue at the export cable landfall site. Installation of three export cable ducts is now complete. Cement bound sand and final backfill operations have also been completed. Placement of the top and bottom layers of rock revetment will continue this week with sheet pile extraction operations also scheduled to commence this week. The landfall works area is shown below in Fig 2.

Fig 2 – Landfall works area located at Carnoustie Barry Golf Links.

## 3. Pre-construction Unexploded Ordnance and Boulder clearance works.

### 3.1 Unexploded Ordnance & Boulder clearance Geophysical Survey works.

An unexploded ordnance and boulder clearance geophysical survey will take place within the Seagreen Offshore Wind Farm site boundary. The survey vessel, Kommandor Iona will utilise towed array equipment with side scan sonar, sub bottom profiler and magnetometer to complete the survey of the remaining WTG locations.

Survey works are expected to be concluded by August 21 however this period may be extended due to weather conditions.

The coordinates of the Seagreen site boundary are below in Table 1 and shown in Fig 1. Details of the survey vessel, Kommandor Iona are shown in Table 2.

ID	Latitude (DDM WGS 84)	Longitude (DDM WGS 84)
01	56° 40.631' N	1° 43.829' W
02	56° 40.606' N	1° 36.151' W
03	56° 39.317' N	1° 36.884' W
04	56° 37.913' N	1° 36.151' W
05	56° 39.923' N	1° 34.627' W
06	56° 31.903' N	1° 29.311' W
07	56° 31.724' N	1° 33.882' W
08	56° 32.983' N	1° 34.195' W
09	56° 33.051' N	1° 35.583' W
10	56° 31.666' N	1° 35.352' W
11	56° 30.803' N	1° 56.378' W
12	56° 40.653' N	1° 56.226' W
13	56° 40.648' N	1° 52.170' W
14	56° 39.836' N	1° 51.101' W
15	56° 38.138' N	1° 46.249' W
16	56° 38.383' N	1° 45.181' W
17	56° 40.157' N	1° 45.487' W

### 3.2 Potential Unexploded Ordnance Identification Survey

A Potential Unexploded Ordnance (pUXO) identification survey will take place within the Seagreen Offshore Wind Farm site boundary. The vessel, Glomar Worker will utilise a ROV mounted magnetometer and video camera to conduct the survey of numerous targets to identify any possible UXO risk. Wind Turbine

Generator positions, Inter Array Cable routes and 1 Offshore Sub-station location within the Seagreen site boundary will be surveyed.

Survey works are expected to be concluded by August 21 however this period may be extended due to weather conditions.

The coordinates of the Seagreen site boundary are above in Table 1 and shown in Fig 1. Details of the survey vessel, Glomar Worker are shown below in Table 3.

Vessel Name – Glomar Worker	
<b>General Description and Dimensions:</b>	Survey vessel. 60.0m LOA, 15.6m beam, 4.5m draught
