Seagreen Offshore Windfarm Ltd.

Weekly Notice of Operations 01/2020

Issue Date – 15th December 2020.

Notice of operations on Seagreen Offshore Windfarm.

Work planned for the period 14-12-2020 to 20-12-2020.

Construction activities are due to commence on Seagreen Offshore Windfarm on Thursday 17th December with works at the export cable landfall site. This notice will be updated weekly giving information of the progress and resources involved in the construction of the windfarm. The intention is to give notice of the activities involved in the construction phase of the project. Should anyone have any questions regarding construction operations we kindly ask that you put them forward well in advance.

The Seagreen Offshore Windfarm is located in the outer Firth of Forth and Firth of Tay region of the North Sea. The site is situated approximately 17.5 nautical miles East-southeast of the Port of Montrose where the project Marine Coordination Centre will be located during the construction and operational phases. The development site will consist of 114 10MW offshore wind turbine generators, 1 HVAC offshore substation platform, associated inter array and export cabling. The generated power will be transmitted to the National Grid via 3 subsea transmission cables making landfall at Carnoustie to the Southwest of the development site. Grid connection will be achieved at the Tealing onshore substation.

The Seagreen development site and export cable corridor is highlighted below in red.

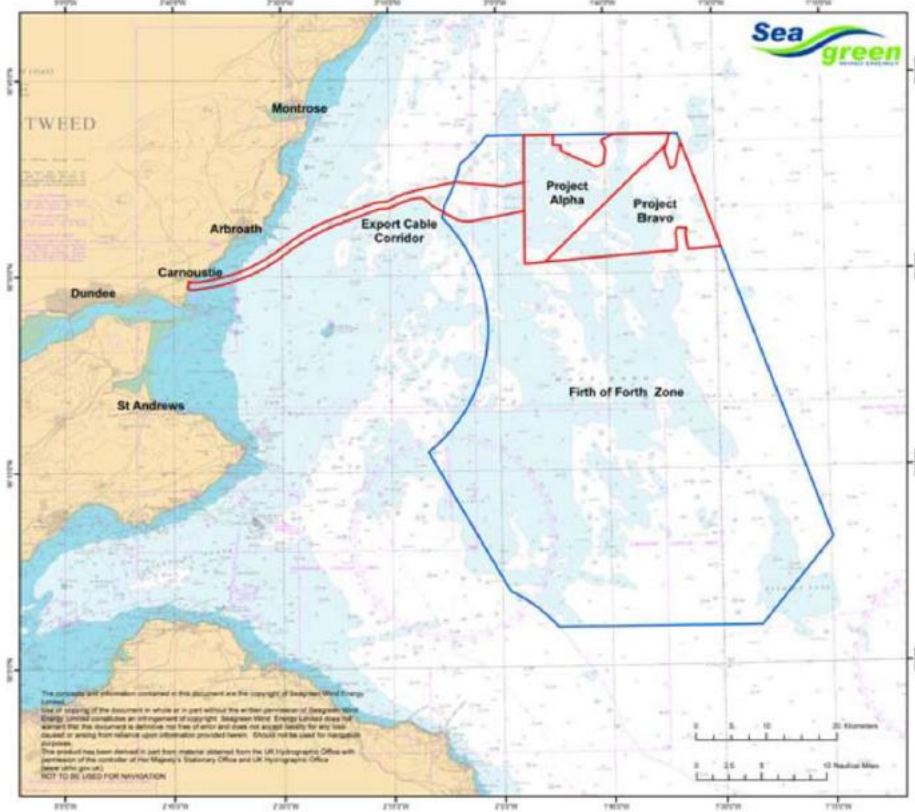

Fig 1 – Seagreen offshore windfarm location and export cable corridor.

1. Contact details for Marine Coordination

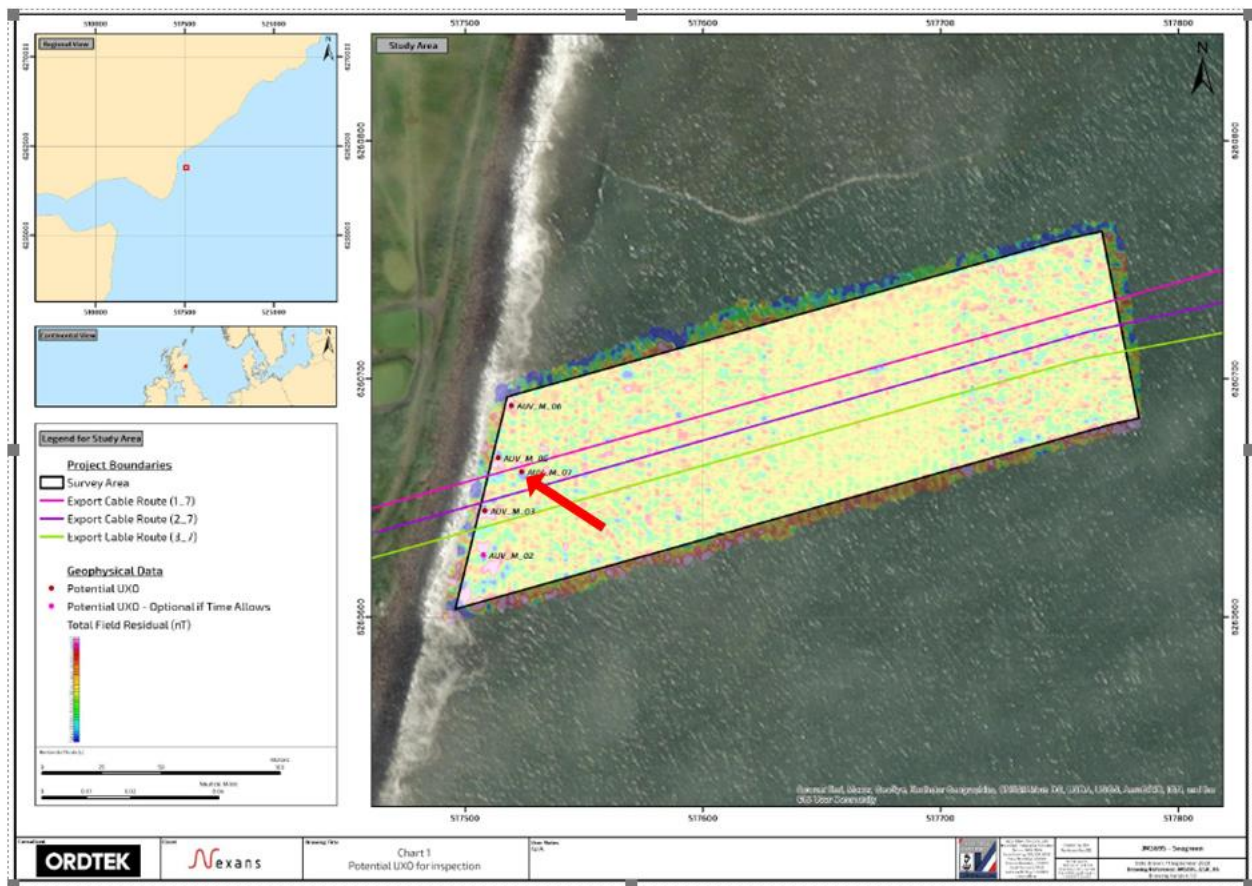

The following contact can provide more information if required.

| | |
|-----------------------------------|--|
| Telephone Number (Day Operations) | +44 (0) 7932 229828 |
| Email for Marine Coordinator | seagreenmarinecoordination@sse.com |
| Address | Seagreen Wind Energy Ltd, 1 Waterloo Street Glasgow, G2 6AY |

2. Ongoing Operations

2.1 Export Cable Landfall UXO Target Investigation Survey.

On behalf of Seagreen Wind Energy Ltd. Nexans Norway AS will conduct a potential UXO (Unexploded Ordnance) survey on one location at the export cable landfall site 400m east of Carnoustie golf club. The location of the potential UXO is indicated by the red arrow in the map below.

The UXO survey team will use electronic survey equipment to confirm the position of the potential UXO, they will then utilise a mechanical excavator to expose the object and confirm its identity. Once located the object will be categorised.

If the object is expended or free from explosives it will be removed to a safe location. If the object is categorised as live unexploded ordnance appropriate action will be taken. An experienced UXO subcontractor will conduct the works, access to the work area will be controlled by Nexans AS.

3. Distribution List

A central list of recipients is maintained by Seagreen Marine Coordination, if you are not the appropriate recipient or do not wish to receive these notices please contact Marine Coordination as per the details in section 1 of this notice.
